THAT LINE FENCE.

Old farmer Smith came home in a miff
From his field the other day,
While his sweet little wife, the pride of his life,
At her wheel was spinning away.

And ever anon, a gay little song
With the buzz of her wheel kept time;
And his wrathful brow is clearing now,
Under her cheerful rhyme.

'Come, come, little Turk! put away your work,
And listen to what I say:
What can I do but a quarrel brew
With the man across the way?

'I have built my fence, but he won't commence
To lay a single rail;
His cattle get in, and the feed gets thin—
I am tempted to make a sale!'

'Why John, dear John, how you go on;
I am afraid it will be as they say.'
'No, no, little wife, I have heard that strife,
In a lawyer's hand don't pay.'

He is picking a flaw, to drive me to law,
I am told that he said he would;
And you know long ago, law wronged me, so,
I vowed that I never should.

'So what can I do, that I will not rue,
To the man across the way?'
'If that's what you want, I can help you haunt
That man with the spectre gray!

'Thirty dollars will do to carry it through,
And then you have gained a neighbor:
It would cost you more to peep in the door
Of a court, and much more labor.'

'Just use good sense—let's build him a fence
And shame bad act out of the fellow.'
They built up his part, and sent to his heart
Love's dart, where the good thoughts mellow.

That very same night, by the candle light,
They opened, with interest, a letter,
Not a word was there, but three greenbacks fair
Said the man was getting better.

Report has it that the recent extensive purchases and leases of railroads in the Southern States, which are supposed to have been effected by parties connected with the Pennsylvania Company, have turned out to be the work of an independent organization, controlled by Baltimore capital. Among the parties concerned in the enterprise are W. I. Walters, Alexander Brown & Sons, General O'Donnel, Messrs. Thomas G. Jenkins, Horace Abbott, Thos. Kensett, George Bartlett and B. F. Newcomber of Baltimore; M K. Jessup & Co. D. Willis James and Roosevelt & Son, of New York; Drexel & Co., P. A. & S. Sewall, and Whitney & Sons, of Pennsylvania, and D James, of Liverpool. Over $7,000,000 have already been expended in actual cash, and up to the present time, by the purchase of stock and controlling majorities in a number of the most important lines of railroads, comprising in all 1,425 miles, have been secured. Besides this control has been obtained under a lease of 363 miles additional. The new company now controls both the main lines south from Richmond, the North Carolina roads, the chief roads of South Carolina, two main roads in Georgia, and the important lines of East Tennessee.

A RACE WITH A PANTHER.—In Pennsylvania, a few days ago, a boy of fourteen years, living in Rockton, Clearfield county, made a narrow escape from a panther. While on his way to the tunnel, on an errand, in Union township, he was startled by a low and heavy growl nearly overhead. Upon looking up he saw a panther perched on a tree, about thirty feet from the ground, which was wagging its tail, in anticipation of springing upon its prey. No sooner did the boy's eyes meet the panther than it gave a loud and very piercing yell, and leaped to the ground. The sudden, bold and noisy demonstration on the part of the panther frightened the colt which the boy was riding, and it took to flight at full speed—the panther keeping close to its side and about the neck to neck, giving an occasional fierce yell, which seemed to add speed to the colt's feet. After running in this manner for about forty rods the panther gave up the chase.

A HORRIBLE AFFAIR.—We learn that on Friday morning last a negro man and his wife, whose names we could not ascertain, residing a few miles from the city, in Campbell county, left home before daylight to visit Lynchburg, leaving their three children, the eldest about nine years of age, asleep in the house. They also left a bright fire burning in the fire-place, from which they apprehended no danger. On returning late in the afternoon they found their cabin a heap of smouldering ruins, and the remains of their three children barely visible in the ashes. It is supposed that a log of wood rolled out of the fire-place and set the house on fire.—Lynchburg *Republican*.

The only securities held by the State from which she derives any income, are the $300,000 stock in the North Carolina R. R. Company, on which six per cent dividends have lately been realized which dividends, by a decree of the Circuit Court of the United States, for the District of North Carolina, have been subjected to the payment of interest due on the bonds of the State issued to pay for said stock.

A CONNECTICUT lady who couldn't persuade her husband to get her a patent clothes-dryer, took the pole out from her old-fashioned line the other evening, and crouching down by the fence screamed 'murder!' In an instant her startled lord came flying out of the house, was caught across the throat by the clothes line, and before he could recover himself it had nearly sawed his head off. The next morning a sombre-looking chap, with his neck all done up, was seen putting up a patent clothes-dryer in the yard.

NAMES OF THE STATES.

Maine—So called from the province of Maine, in France, in compliment to Queen Henrietta, of England, who, it had been said, owned that province. This is the commonly received opinion.

New Hampshire—Named by John Mason in 1639 (who with another obtained the grant from the crown,) from Hampshire county in England. The former name of the domain was Laconia.

Vermont—From the French *verd mont*, or green mountain, indicative of the mountainous nature of the State. The name was first officially recognized Jan. 16, 1777.

Massachusetts—Indian name, signifying 'the country about the hills.'

Rhode Island—This name was adopted in 1664, from the Island of Rhodes, in the Mediterranean, because of its fancied resemblace to that island.

Connecticut—This is the English othography of the Indian word Quon-ee-ta-cut, which signifies 'the long river.'

New York—Named by the Duke of York, under color of title given him by the English crown, in 1664.

New Jersey—So called in honor of Sir Geo. Carteret, who was Governor of the Island of Jersey, in the British Channel.

Pennsylvania—From William Penn, the founder of the colony, meaning 'Penn's woods.'

Deleware—In honor of Thomas West, Lord de-la-Ware, who visited the bay and died there in 1610.

Maryland—After Henrietta Maria, Queen of Charles I., of England.

Virginia—So called in honor of Queen Elizabeth, the 'virgin queen,' in whose reign Sir Walter Raleigh made the first attempt to colonize that region.

North and South Carolina were originally in one tract, called 'Carolana' after Charles IX., of France, in 1504. Subsequently, in 1565, the name was altered to Carolina.

Georgia—So called in honor of George II., of England, who established a colony in that region in 1732.

Florida—Ponce de Leon, who discovered this portion of North America, in 1512, named it Florida in commemoration of the day he landed there, which was the Pasquas de Flores of the Spaniards, or 'Feast of Flowers,' otherwise known as Easter Sunday.

Alabama—Formerly a portion of Mississippi Territory, admitted into the Union as a State in 1819. The name is of Indian origin, signifying 'here we rest.'

Mississippi—Formerly a portion of the province of Louisiana. So named in 1800 from the great river on the western line. The term is of Indian origin, meaning 'long river.'

Louisiana—From Louis XIV., of France, who for sometime prior to 1763 owned the territory.

Arkansas—From 'Kansas,' the Indian word for 'smoky water,' with the French prefix 'are.' bow.

Tennessee—Indian for 'the river of the big bend,' *i. e.*, the Mississippi, which is its western boundry.

Kentucky—Indian for 'at the head of the river.'

Ohio—From the Indian, meaning 'beautiful.' Previously applied to the river, which traverses a great part of its borders.

Michigan—Previously applied to the lake, the Indian name for a fish weir. So called from the fancied resemblance of the lake to a fish-trap.

Indiana—So called in 1802 from the American Indians.

Illinois—From the Indian 'illini,' men, and the French suffix, 'ois,' together signifying 'tribe of men.'

Wisconsin—Indian term for a 'wild-rushing channel.'

Missouri—Named in 1821 from the great branch of the Mississippi which flows through it. Indian term, meaning 'muddy.'

Iowa—From the Indian, signifying 'the drowsy ones.'

Minnesota—Indian for 'cloudy water.'

California—The name given by Cortes, the discoverer of that region. He probably obtained it from an old Spanish romance, in which an imaginary island of that name is described as abounding in gold.

Oregon—According to some from the Indian oregon, 'river of the west.' Others consider it derived from the Spanish 'oregano,' wild majoram, which grows abundantly on the Pacific coast.

Cuba and Spain.

It is a kind devil that so continually incites bloodshed and sensation in society for the satisfaction of lovers of the marvellous and the newspapers. The butchery of eight students of medicine and the condemnation of forty more in Havana by the Spanish volunteers, because they had done some trifling injury to the tomb of a general is one of the most fruitful sources of newspaper declamation 'out.' The act was indeed horribly barbarous; a disgrace to Spain and a stain upon civilization in Havana that will not wash out.

The comments upon this terrible tragedy (perpetrated by order of a drum-head court upon the students who had been treacherously handed over to the merciless volunteers by the civil authority) show a chafing in the public spirit in this country—and impatience of restraint upon the desire to annex Cuba. The press speaks of the possible outrage of these volunteers upon American citizens more in the spirit of desiring such outrages as a pretext for seizing Cuba than in the fear that they will take place. And this desire for Cuba will at some day, in the absence of a real provocation, break through all restraints, and that island will be annexed.

We have no sympathy with the GRANT Administration in its scheme to acquire St. Domingo. It would be a foul patch upon the nether integuments of the nation, and take us one step lower in the eyes of the world. But Cuba would be an acquisition indeed.

Speculations about the assumed instability of the present government of Spain, and its inefficiency, are indulged as grounds of hope that Cuba will exfoliate from the mother country. That won't do for this country. It must belong to Spain or the United States. It cannot be left independent with safety to the interests of this country. It has been long enough a cancer on the side of the Union, fruitful of disturbance and political annoyance. It must be annexed to avoid consequences. For years it has been such a cause of irritation, and its irregularities have been so serious and have occurred in such rapid succession, that as a question of police, for the preservation of order upon waters washing our own shores, the United States Goveanment should take hold on it.

With such incentives to public policy and to action with reference to Cuba, it is humiliating to see our Government treating with the giddy-giddy-gouts of Hayti and St. Domingo—holding parley with the 'Parrots' and the 'Lizzards'—attempting to impress the world with the idea that those poor creatures are endowed with sense and dispositions that entitle them to the dignity of treaty-making nations. It could be established in a court of law that they are *non compos*, and that what we might get from them were as good as stolen, as we believe, indeed, it would be upon the terms of the 'put-up job' to which the President lent the approbation and authority of this great nation. May kind Providence save us from such disgrace as would be justly entailed upon us by any such treaty with the poor and semi-civilized inhabitants of that island of St. Domingo, whose history carries with it a moral that should sink deep into the minds of the people of the United States.

We are uncompromisingly hostile to the sneaking, GRANT policy in the West Indies, and we are in favor of a bold and manly and rational diplomacy which shall secure to us Cuba and insure peace in the near Atlantic waters. This is what we want. St. Domingo, indeed! We would much better acquire the right to an island of monkeys, because they would be indeed monkeys, and no bar to the establishment of real civilization and the order and thrift which intelligence and industry would fashion.—Richmond *Dispatch*.

The Little Rock (Ark.) Gazette says: 'In our commercial column mention has already been made of the fact that, according to the October report of the Department of Agriculture, Arkansas stands foremost of all the Southern States in the culture of cotton. In addition to this pleasing intelligence, our information places the number of acres planted at one-third less than last year, and the proportion of corn over last year correspondingly increased. For one year our farmers took a common-sense view of matters and the result is, their cotton will bring them as much as last year—the decrease in the number of bales raised making the demand greater, and thereby increasing the price—while our cribs are overflowing with corn. Every farmer has his barn full, and if he was not to receive one cent for cotton, he is consoled with the reflection that he has plenty laid up to eat another year. To add to this gratifying condition, parties who have traveled extensively through the State report the mast crop better than known for many years. It is sufficient of itself to fatten all the hogs in the country, and there is a fair prospect of pork being cheaper than any year since the war.'

The Central Texan, of the 17th, says: 'We have been shown by Mr. I. Levy a sample of the Egyptian wool-cotton, and are highly pleased with its appearance. It is soft, white, and as fine as the best Merino wool, and, in fact, can not be distinguished from it except by competent judges. It grows on a bush exactly like the cotton plant; has seed like it, and is cultivated in the same manner and at the same seasons as cotton. It is no more trouble to raise and is equally as productive, while a pound of this fleece or wool is worth several times as much as a pound of ordinary cotton-lint.'

It is said that the very first thing the Grand Duke Alexis asked for on landing in America was a bottle of Wintersmith's Buchu. If the gentleman who bet with us that the Grand Duke's first call would be for a bottle of Bourbon will come forward and settle immediately, he will greatly oblige us.

I respectfully recommend that an appropriation be made for a new issue of national bank notes. Those now in use are much worn, and very successful counterfeit of several denominations have appeared. —*Secretary Boutwell.*

Hillsborough Recorder.

WEDNESDAY.....DEC. 13, 1871.

☞ The Prince of Wales is in a dying condition.

☞ The revolutionists in Mexico are gaining ground.

☞ Miss Tenny Grog has been appointed postmistress at Bradford, Va.

☞ The Grand Lodge has taken $10,000 in the Masonic Temple Association.

☞ Spain may soon bid adieu forever to the brightest diadem of the Spanish crown.

☞ A resolution by Mr. Morris adjourning the Legislature *sine die* on the 21st of December.

☞ A Western editor says: One night last June our office conflagrated and went where the woodbine twineth.

☞ A rumor that Juarez had sent to this government a special messenger to transfer Mexico to the U. S. is current.

☞ The American Eagle will soon scream from the snow clad mountains of Main to the southern confines of Mexico.

☞ A bachelor editor, who had a pretty unmarried sister, lately wrote to another similiarly circumstanced, "Please exchange."

☞ Garters with monogram clasps are now worn by the pretty girls. They are rather a novelty yet, but we hope to see more of them.

☞ A Virginia negro was detected in the act of cooking a black cat, as he said: 'to give him luck at cards and save him from dem dar dreffal Ku-Kluxers.'

☞ Hon. A. M. Waddell, Representative offered a resolution calling on the President for information in regard to the invasion of this State by the troops now station-in South Carolina.

☞ A Montgomery, Ala., paper says: 'The bridge of the Western road across the Alabama river, is said to be one of the grandest specimens of architectural and mechanical skill in the United States.

☞ In a speech at Columbus, Ga., Hon. Samuel Barnett said the South, by producing 4,000,000 bales of cotton, lost forty million dollars; whereas, if the crop had been restricted to 2,500,000 bales, the profits would have been equal to one hundred million of dollars.

☞ The Raleigh *Carolinian* says:—It would be well for our people to keep in mind the following points as regards the United States tax.

All spirits are taxed fifty cents a gallon.

Distillers of corn pay two dollars a day and four hundred dollars a year special tax. While distillers from apples, grapes and peaches only pay fifty dollars a year special tax, and are required to pay *no per diem*.

Dealers in manufactured tobacco are only required to pay five dollars a year, *provided* they sell one hundred dollars worth or over a year. If they do not reach this amount in their sales they pay no tax. But dealers in leaf tobacco, no matter if they only sell one pound, are required to pay twenty-five dollars a year tax.

☞ This is what they call a "joke" in New Orleans, says an exchange paper: A country-looking chap gets off a train. A stranger steps up to him and says:—"Ah! five feet nine high, two feet eleven across the brest, eighteen inches through." "What do you mean, sir?" eagerly asks the countryman. "It's all right," says the other. "You measure five feet eleven by eighteen. I'll be ready for you by nine o'clock to-morrow morning," and he puts up the tape line with which he has been making the measurements. "What are you driving at, sir?" asks the countryman, angrily. "Why, you see," says the other, "the yellow fever is killing off strangers so fast that I have to take their measurement as they come in, or else the dead bodies accumulate on my hands." A pallor comes over the countryman's face, a frantic call is made to the baggage-master to re-check his trunk, and he leaves for home.

☞ It is perhaps rather late in the day to publish incidents of the Chicago fire, but the *Post* relates one which deserves more than a local circulation. It is the story of an Indian who had arrived in the city but a few days before the great disaster. As the flames advanced he was standing on the sidewalk of State street. He gazed upon the rushing columns of fire as calmly as if he was contentedly viewing an Apache brother cutting the throat of an Arizona settler. All about him was crackling ruin, but his bronzed face gave no indication of fear. Through the smoke and fire the panic stricken multitude called upon him to fly, but he stood immovable as a statue and vouchsafed no answer. The curling tongues of flame wrapped him in a blazing garment, and soon he perished—a victim to a mistaken idea of courage. The proprietor of the cigar store who had him carefully chiselled out of a pine tree at a cost of twenty-five dollars is inconsolable.

☞ The Troy *Press* of a recent date says: The name of George Brazee and the record of his family squables have oft found prominence in our local Police Courts.—Recently George Brazee, with his wife, has been living in Union street, and we have had a lull in the news from this interesting family. The troubles, however, have continued in the Brazee household, and culminated yesterday morning in a gross outrage. Brazee charges that his wife is not true to him, and, as a fitting punishment, he arose early yesterday morning, and while she slept he scissored all the hair from her head, procured a pint of tar and some feathers, and applied it to the shorn poll. Awakening from her sleep, Mrs. Brazee found herself all besmeared with the sticking mass, and after a liberal application of soap and water, had the husband arrested. He acknowledged his guilt, and handing the scissors to the Justice, exclaimed: "There, give these scissors to the old——when she comes down." Brazee was admitted to bail yesterday, and will shortly be tried on the charge.

☞ There may be something a little more serious in this Spanish sensation than appears upon the surface, says the Kentucky *Courier Journal*. It is just possible that Grant has come to the conclusion that his bayonet game in the South won't win—that the votes gained by the combined agencies of terror and manipulation will be more than balanced by the votes lost through the discontent and disruption which the despotic and bare-faced cruelty of his Southern policy threatens to cause in the Republican party. There are no means at hand of knowing whether this Cuban crusade is justifiable or not. It is just possible, we say, that Grant has struck upon a new plan for making certain his own re-election. And it looks alarmingly like success. Suppose he should plunge the United States into a war with Spain upon a plausible pretext, and come out with flying colors. Military glory carried him to the White House before, and, having miserably failed in all things else, it is a very plausible presumption that he will resort to it again. Incipient disruption is everywhere evident in the Republican party, and, unless something is done to stop it and preserve the unity of that party, the re-election of Grant is hopeless. A foreign war would serve the purpose admirably, and it is just possible, again, that poor, decrepit, downfallen Spain is to be made the victim of a cause for which South Carolina and he South have been made to suffer.

☞ A correspondent of the Richmond *Whig*, writing from Burkeville, Va., under date of the 6th instant, says: A gentleman arrived here yesterday on the Norfolk train, who represents himself to be the Rev. George Evans Wyche, of Wilkes county, North Carolina, and nephew of the Rev. Ira T. Wyche, of Trinity College, in that State. He put up at the Burkeville hotel last night, and a servant reported to the proprietor, Mr. Deem, this morning that the lodger had thrown all the bed clothing in the fire-place and thrust some of it up the chimney' and had otherwise acted like one whose mind was impaired. It was accordingly deemed expedient to arrest him, and this evening Constable Peter Lapeve took charge of him. He will be examined by the proper authorities at Nottoway court-house to morrow (court day.) The general impression is that he is insane, or that some weighty sorrow is preying on his mind. He informed your correspondent that he had been a minister of the Methodist denomination for fourteen years by regular appointment of the North Carolina Conference, and that he preached his last sermon in November, at Charity church, Wilkes county, N. C. He is very meek and harmless towards his fellow man, but might injure himself, as he endeavored to borrow a pistol last night, remarking that he was afraid to sleep in a room by himself. Should this notice reach any of his friends in the good old North State I would inform them that he has been and will be kindly cared for by our people until they can send for him.

☞ A Columbia Springs man advertises "Good Cheap Dancing—The first Grand 50 cent Hop of the season," etc., and adds, "Good Stabling Free."

☞ A late English paper chronicles the arrest of Mr. Samuel Onions, cashier to the firm of Pickles & Son, after only twenty-four hours of honeymoon.

THE PUBLIC PRINTING.

So it appears upon investigation that the State has again been fleeced in the matter of the Public printing—and fleeced this time worse than Littlefield and Joe Holden fleeced her. But who's to blame for it? Nobody! says the majority report of the "investigating Committee." It is all the result of a misunderstanding on the part of the Committee appointed to contract for the Public printing who thought that Moore (the contractor) meant the quadrate *em*, while he (Moore) meant the letter *m*, measured the *narrow way!* Well, that is a new mode of measuring *ems*, and we would like to do a little printing for the State in this way. No printer ever heard of measuring quadrate *ems* by the letter *m*, ("narrow,) before. We never did—but perhaps we know nothing about it.—What is an *em* quadrate? It is a short blank type, in thickness equal to the square of the letter of the fount to which it belongs. The letter *m* measured flat (▯ thus) will give you the measure of the quad *em* in length of line, but it lacks considerable when measured thus m. This is the way it seems Mr. Moore agreed to do the work, if we understand the Committee—and the Committee felicitated itself on having 'gouged' the Printer for once and secured a great saving to the State! But lo! the biter got bit! and nobody is to blame. The Printer proved himself too smart for the whole Legislature, and as it is seldom printers get half paid for their labor, we see no use in making a big fuss over it. But the Radicals will make party capital out of it! Tell the Rads to go to ——Boston. They're only mad because the fat job didn't fall into their hands.

The majority report of the investigating Committee says:

"After thorough examination and mature consideration of the evidence [they] are of opinion that the contract, as explained by Mr. Moore to the Committee at the time the same was under consideration, has not been violated, and that no funds have been improperly drawn."

Then the majority report says:

"Your committee would recommend the passage of a resolution directing the auditor to audit his accounts, [from Sept. up,] provided the printed matter is counted by the measurement of "m" quadrate."

Now, we desire to say that the printer does not live who has ever seen an "*m*" *quadrate*, and if the Committee means to pay the printer by the *em* quadrate what right has the Committee to disregard the *en* contract which said Committee says has not been "violated"?

The minority report charges the public printer with the grossest fraud, and shows that he has fleeced the State worse than Littlefield and Holden, and they seem to blame Joe Turner with it. We do not see how or why blame should be cast against Turner. He is no printer—had no hand in making the bargain—and draws such pay only as Mr. Moore or the head man in the mechanical department of his Office reports him entitled to. And after all the fuss about it, we'll bet our old hat that Joe Turner will not *clear* enough on this public printing to buy a ginger cake.

Gone Back on Mabson—Daniel Latta, the negro from Orange county, whose letter Mabson, the colored Representative, from New Hanover county, professed to read to the House the other day, regaling them with an account of some Ku Klux whipping that Latta was made to say was done by F. N. Strudwick, in disguise as a Ku Klux. We say that Daniel Latta has gone right back on his colored brother, Mabson. What Mabson will do now or what will be done with Mabson remains to be seen. As for Daniel Latta, the following examination took place before Commissioner Best, on yesterday. Daniel was sworn and said:

"I never wrote the letter nor caused it to be wrote, nor did I know anything about it till I came here and heard it."

"Has any one either disguised, or otherwise, ever whipped you?"

"*None has ever struck me a lick since the surrender!*"

This is a right hard case for the Hon. Mr. G. L. Mabson, all the way from New Hanover.—*Raleigh Carolinian.*

☞ There is but little doubt that the Radical faction here and elsewhere started out to hound down Mr. Strudwick, but we think he has 'turned the lock' on the party. And now the question is, who wrote that letter, and by what authority? Latta swears that he had nothing to do with it, and that its statements are false. We also learn from undoubted authority that he says he was approached and offered a big sum to swear to the statements of this letter. It would be well to arraign Latta and make him tell who it was that proposed to bribe him to swear to lies against F. N. Strudwick and Abraham Hedgepeth. It's a serious matter, this effort to tarnish a man's public and private character.

Mabson ought to know who wrote that letter—make him kiss the calf skin, and then eject him from the seat he disgraces. We dare say he is better qualified for boot blacking than legislating.

☞ A delirious farmer jumped down a well and it cured him. [Got well.]

SHE DANCED WITH THE DUKE.

The newspapers inform us that Miss Nellie Murphey, daughter of ex-collecter Murphy, (Gen. Grant's pet,) who made himself great by public plunder, had the exquisite pleasure of dancing with the Grand Duke at the Ball on Governer's Island. We are not advised wether she swooned, fainted or expired but she was the Grand Duke's first partner, and he is represented to have slipped up and fallen down on the floor, and no doubt had a gallon of spirits under his shirt. What exquisite sensations (says the Richmond *Examiner*) must have been experienced by Miss Nellie! The happiness of that woman must have been intense beyond the wildest imagination. We read of a woman the other day for whom a barber reported that he "curled her once for a ball," and that she had "two hundred and forty-seven curls when he was done." He said "he began at ten o'clock in the morning, and he never got through with her till nine o'clock at night!" But what true woman would not have gone through all that for the rapture experienced by "Miss Nellie?" Why we take it, most girls would give up ten years of their married life to dance the first set with the Grand Duke.

THE RAIL ROAD LEASE.

The Senate of N. C. has passed a resolution about half a yard long appointing "a Commission" to investigate the Lease of the N. C. Rail Road, &c, &c, &c. The duties assigned the "Commission" are numerous, arduous and tedious, and allowing it proportionable time of other "Commissions" to make its report, we may calculate on getting it somewhere near the crack of doom, and at a cost to the State almost as much as the Road is worth.

The *Carolinian*, noticing the matter says:

The proper persons to inquire into this matter and submit the facts to the Legislature, are the gentlemen composing the Joint Committee on Internal Improvements, who would probably be able to report all necessary facts during this Legislative term, something the quasi-fraud Commission, composed of Messrs. Shipp, Batchelor and Martin cannot do in six months, if they carry out the instructions of the Senate resolutions.

And there is another point worthy of consideration in the matter. It is this: The Joint Committee on Intenal Improvements would investigate and report without the expense of an additional *per diem*, while the *per diem* of the Shipp Commission is, all told, for members and clerk, twenty dollars per day and mileage.

The Committee on Internal Improvements can have little or no work before it, and hence there is no good reason why these gentlemen shall not give their time to this important matter involving the people's interest.

We insist, in behalf of the people of North Carolina, that this matter shall go to the Committee on Internal Improvements, and thus save the State several thousand dollars.

If there is any fraud in this matter let it come out before a Committee whose existence does not pre-suppose fraud.

We know President Buford and Wm. T. Sutherlin, two of the men who represented the R. & D. R. R. in the lease, and we know they would scorn to lease the N. C. Rail Road or any other Road at any price upon fraudulent terms. They are as honest and honorable as any man or any set of men in the North Carolina Legislature. Whether the lease was privately or publicly made, it was a good thing. There's no rubbing out this fact. Gentlemen even who kick up about it because they were not consulted, admit it to be so. And instead of trying to find out who leased the Road without asking them about it, they would serve the interest of the State more by adopting measures requiring the lessees to stand to the bargain; for it is whispered they are a little sick of the bargain and think the R. & D. R. R. could do better by building a connecting link from Greensboro to Charlotte. And then what? How much dividend will the stockholders get in that case? Who would give $5 a share for the stock? Not the Raleigh & Gaston Road! Not any Road that pretends it would have given more than 6½ *for five* years, and five years only. We think 6½ for 30 years a great deal better than 7 or 8 for five years—and after that *nothing*.

IMPORTANT CASE.

In the Federal Court the case of Terrell *vs.* Williams was decided last week. The action was brought by Dr. Terrell, a non-resident, to recover five thousand dollars from Greene and Sandy Williams of Person county in this State. After the decision by our Supreme Court that the Constitutional homestead exemption was retroactive Mr. Terrell who held a large lot of notes and other evidences of debt left Person county where he resided to take up his residence in another State for the purpose of collecting his debts in the Federal Court where the Homestead exemption is held not good against old debts. Gov. Graham for the defence raised the point that Terrell had just gone from the State for this purpose and it was a fraud upon the Court and he hoped the case would be dismissed. His Honor held differently. That if Terrell had gone from the State to reside permanently it made no difference what his object was. So Dr. Terrell gained the case.—*Raleigh Carolinian.*

WEDNESDAY.....DEC. 13, 1871.

LOCAL DEPARTMENT.

☞ John J. Jones, Esq., of Milton. is an accredited Agent of this paper. Subscribers there will please settle with him.

Local Matter.

We will be very thankful to our friends and the rest of mankind in this and the adjacent counties if they will communicate to us all incidents of interest that transpire in the neighborhood in which they reside.

Fine Presents.

We beg, in this manner, to return our sincere thanks to Mr. Gus Graham, of this town, for a dozen fat and fine partridges bagged on the wing, last Monday. The partridge is, in our opinion, one of the finest birds in the United States, and there is no danger of this game becoming scarce in the South if the wholesale system of destruction by the net be prohibited.

We return thanks to that very clever gentleman, Dr. Geoghehan, who has lately settled in this town, for a fat, fine Turkey, which he intended for our Christmas dinner, but as we had no taste of Turkey on Thanksgiving day, he must pardon us if we pitch into the carcass of this Christmas bird before Christmas comes—don't think we can wait that long. It is refreshing to think that some people live who remember the printer, and we have reason to believe he occupies a prominent place in Dr. G's heart.

Newspapers.

Newspapers seem to be springing up in every Cross Road village in this State, and promise to rival in number Tobacco Warehouses. These newspapers come like bubbles and like bubbles depart. If a man is flush with greenbacks and anxious to get rid of them in a hurry, we advise him by all means to start a paper—it will clean him out effectually.

Target Shooting.

The Bingham School had target shooting on Friday the 8th inst. The following named Cadets were the most successful. T. P. McIver, of S. C, L. T. Smith, of N. C, P. Barringer of N. C, N. H. Sprunt, of N. C., and E. T. Cook of Texas.

Hog Stolen.

Hon. Josiah Turner, jr., had a fine Chester hog stolen last week—it was one of a pair imported, as we learn, from Tennessee.

Paris and Her Shameless Fashions.

Paris (says the London *Telegraph*) has learned nothing, forgotten nothing, and she sends out to-day styles of attire as shameless in their immodesty, vanity, prodigality, and defiance of true feminine grace as anything which scandalized the last years of the Empire. She avenges herself on the modest German women with a book of fashions which is calculated to ruin all moderate revenues, to put chastity and sobriety to scorn and to drive even Queens into courts of law. Those prodigious trains, those senseless appendages, that huge sham mass of dead hair, which no longer affects to be natural; the countless flounces and furbelows, scrolls and ruches, which are the negation and death of drapery; the hats and bonnets which have ceased to be more than a ludicrous caprice; the piled up *passementerie* and costly inartistic trimmings—all these with high heels, breeding corns and bunions; black lead under the eyes, causing early blindness, and a *tout ensemble* which would make honest women blush, if *poudre de perles* allowed it—are what we get from Paris, where so little apparently survived except the curse which every honest heart prayed to see die.

Savings Bank in Hillsboro.

The *Carolinian* of the 12th inst says: Senator Graham of Orange introduced last Saturday a Charter with the names of Thos. B. Hill, C. M. Latimer, Thomas Webb, George Laws, D. C. Parks, J. Y. Whitted, P. C. Cameron, James Webb, Jr., and others, to be a body corporate under the style of the "Bank of Hillsboro," with all the rights and privileges heretofore granted to the "Hillsboro Savings Institution," or to the "Bank of Mecklenburg," under acts of '68 and '69, and '70 and '71, with a capital not to exceed two hundred thousand dollars and authorized to commence business when twenty thousand dollars have been subscribed and paid in.

This bank will give our farmers the advantage of storing their tobacco or other commodity as a security on which they can borrow money till the same be sold in market.

We call the attention of Tobacco growers to the advertisement in this paper of the Tobacco Planter's Friend. This work can be had of Dr. Hooker of this town & of Henry R. Farmer, Esq., of Danville, Va.; the price is only $2, while the instruction it imparts is worth hundreds of dollars to the growers of Tobacco. Get a copy by all means; it will be money well spent. We know the author to be a high minded gentleman, and what he does not know about raising and curing fine Tobacco is not worth knowing.

Hanging.

Next Friday is the day appointed for the execution of Pompey Lyon, colored. We have no desire to witness the hanging and prefer to run from it rather than to it.

☞ Read the advertisement of Mr. S. W. Hughes' School. This is one of the best Schools in the State for Boys, and we commend it to public patronage.

RALEIGH.

(From our own Correspondent.)

This is Tuesday. And Monday and today Raleigh has been all astir with Dan Rice's Circus. The Band Wagon tooted all over town and such a raising of windows and getting out on the roofs to hear the music and see the crowd you never saw. One old country chap who had his gallon under his shirt was seen following in the rear of the crowd and ever and anon throwing up one heel trying to dance after the music. This circus is a good one. It's performers are gentlemen and the talent is not noisy and swaggerish but refined and educated. There are two little boys six and seven years old with it, the Nelson Children, who are the most wonderful trapeze performers and tumblers we ever saw. Their father, an Englishman, performs with them and handles them on his feet as if they were bouncing balls and then the little fellows take each other on top of their shoulders and the one standing erect the other walks round the ring with him. When they take that swooping leap hitching their hands through two iron rings and swinging the whole length of the canvass, and letting go and catching with both hands at a rope on the opposite side, it is curious to watch the features of their mother, who, strange to say, always comes in and takes her seat near to the dreadful leaping place, and seems lively, even pats her foot to the music, but when that leap is made, you can't *beat the mammy out*, she jumps and trembles. The ring-master of this circus used to be a boy that was born and raised in Henderson, in Granville county. His name is Trawalla and his father was a tailor. But he has worked like a man and Dan Rice, who has got a heart as big as his head is level, says he is a sober, deserving young fellow, and he has been circussing now for fifteen years. His wife and sister came from Richmond and they met him here. We hear of some of his "old schoolmates" in other days who didn't want to know him because *he* was a circus man, and they said his father was a tailor. We enquired about this ilk of gentlemen and we found that when *his* father was a tailor at Henderson theirs was *a shoemaker*. God have mercy on this poor silly world.

ABOUT THE LEGISLATURE

well, we don't know what. Senator Graham has so far done the only substantial thing for the farmer and that is the Savings Bank in Hillsboro. We hope soon to record our Caswell representatives doing the same thing in the way of the Milton Bridge. They say all that is necessary is for the people *to petition* them. Why don't they petition?

The Senate bill extending the Chatham road from Sandford its present terminus to Augusta passed the House to-day. But it doesn't compel it to go by the Gulf, very much to the disappointment of the Fayetteville people.

THREE CROWDS.

There are three different crowds of people now sojouring in Raleigh. One crowd always talking about the probability of a fight between newspaper men. One crowd scratching in the ground to get it up. And the other crowd both writing hard away for dear life so as to have it and give an entertainment. The Legislature in the meantime is meeting regularly at ten o'clock in the morning.

THE YARBOROUGH.

Dr. Blacknall is just literally crowded and running over. We never saw so popular a hotel before. People from the South, North, East and West, all flock here, and the man is actually coining money as fast as it can be changed.

PERSONAL.

☞ That model machine of Business, Charles Dewy Hill, of the firm of Hill. Bently and Skinker, Commission Merchants of Richmond, Va., called on us yesterday and was looking remarkably well. Selling leaf tobacco and grain for planters at the tallest figures agrees with him. We recommend this first class house to our Farmers; it is composed of business or working machines and as clever fellows as ever broke a hoe-cake.

We also had the pleasure of receiving a call from our young friend E. M. Pace, the prince of Tobacco Warehouse men in Danville, Va. The planters tie to Pace's warehouse and well they may, for it ties to their interest.

Complimentary.

In the absence of the Junior Editor we transfer to these columns the following complimentary notice from the pen of the accomplished Editor of that most excellent journal the Statesville (N. C.) *American*. A compliment from such a source is a compliment indeed;

We had the pleasure of meeting several members of the press during our stay in the city, beside several of the craft, and return thanks for the kindness received at their hands. The inimitable local of the *Carolinian*, T. C. E., we found to be one of the most agreeable and social companions, on first acquaintance, that it has ever been our pleasure to "wink at." He's a chap after our own heart, and deserves the popularity which has been so unanimously awarded to him. "Here's to thee, Tom Evans."

☞ Judge Tourgee did not arrive at Graham and open Alamance Court until 11 o'clock Tuesday. The Legislature ought to pass a law compelling Judges to "come to time." This might be done by docking their pay.

☞ Read the advertisement of the Southern Fertilizing Company in this paper. We will notice this splendid Fertilizer more particular in our next.

For the Recorder.

Verbum sat Sapienti.

The Tobacco interests of Hillsboro the coming season should not be lost sight of for one single moment by any citizen of the place. On the success of the several Warehouses here much of the prosperity of the place depends. How to increase the Tobacco trade, and thereby enhance the value of everything in and around the town, is apparent to the most superficial observer. The planters who patronize or who would patronize the market here, are thinking acting and sensitive men, and when they come to the market with their produce would like to come to a place where they can feel that they are among friends and sympathizers, who take an interest in their welfare, and the welfare of their families at home. Let the business men, and the property holders of this place, take an interest in the Tobacco growers and their affairs. Let them mix with them, extend to them the cordial grasp of a friendly hand, manifest a desire for their welfare, encourage them to *come again* to our market, and in every way make them feel that they are not strangers in a strange place, and my word for it, in a few months we will see our streets crowded with wagons loaded with tobacco, and our merchants selling double the amount of goods they are now selling. In this connection let me say that a spare bed, and a good cup of coffee, is a very acceptable accommodation to a man who is away from home, and not accustomed to camping out on the cold ground. *Verbum Sat.*

MILTON, N. C., Dec. 11th, 1871.

C. N. B. Evans—* * * We are anxious for you to come back to Milton & start the *Chronicle* again. Milton prospects are brighter than ever before known. All the houses filled; in some cases two and three families in a house. If we had the houses our population would run up to 2000 in no time. We have 4 large Warehouses full of Tobacco, (the Wilkerson Warehouse is going it with a rush,) daily, any number of buyers and the weed selling high; streets full of wagons and the stores full of customers; trade the best in the world. Three Tobacco Factories and two Smoking Tobacco factories. Otto Salzman has just returned from New York with a splendid lot of all kinds of Watches and Jewely and opened in his new and beautiful store.

☞ Look here! reader—are you a subscriber to this paper? No, you're not!—And you read it constantly, at another person's expense! Blush for shame! If you live in Hillsboro' and are able to take the paper and pay for it like a gentleman, harness your neck with a grape vine and swing off into kingdom come. The time may come when you'll have no chance to subscribe for a paper printed in your town.

☞ They want a good Barber in Milton N. C. No. 1, preferred.

NORTH CAROLINA CONFERENCE.

HILLSBORO' DISTRICT—W. Barringer, P. E.

Hillsboro', L. W. Crawford; Alamance, S. S. Webb; Chapel Hill, J. B. Martin; Pittsboro, W. H. Moore; Franklinsville, J. C. Thomas; Deep River, W. F. Clegg; South Guilford, Z Rush; Leesburg, J. W. Jenkins; Person, W. M. Jordan; Durham, J. J. Wrenn; High Rock Mission, A. Norman.

The next Conference will be held in Fayetteville in November, 1872.

FEDERAL OUTRAGE.—Some three or four weeks ago Mr. Allen Bettis, chairman of the Board of Commissioners for Cleaveland county, was arrested by Grant's military, carried by force to South Carolina and lodged in Yorkville jail, where he is still confined. Several days after, four other citizens of Cleaveland were arrested illegally by Federal cavalry, and likewise disposed of.

These gross outrages have not been ventilated as they should have been. They should be blazoned over the land until there is no man who has not heard of them. Never was there a more despotic use of power, never even in Poland. A State not under martial law, enjoying profound peace is suddenly invaded by a band of armed men, whose mission in South Carolina, view it in its mildest light, is the climax of tyranny—a civil officer is arrested, dragged from his family, home and State, and cast like a common felon into a county jail of anosher State. But this, bad as it is, is not enough to satisfy the minions of tyranny, and four other peaceful citizens are dragged from their families and State and incarcerated in the same jail. There is no parallel in recent history, and to find a fitting parallel the mind will have to run back to the rigorous days of mediæval despotism. It is the most damnable chapter in the most damnable history of a most damnable administration, and deserves to be read of all men as a lesson and a warning.—Wilmington *Star*.

GENERAL AMNESTY.

In view of the unexpected recommendation of the President in support of general amnesty a movement will be made to report and pass such a bill before the 21st of the month, which is the date on which the holiday recess will commence. Ex-Governor Holden and other extreme southern Unionists are in favor of such a course.—*Washington telegram in Baltimore Sun.*

PICOT'S

VIRGINIA WORM KILLER.

The Best, Safest and most Pleasant Remedy for WORMS ever discovered.

Tried by Thousands and approved by all.

CHILDREN CRY FOR IT!

MOST of diseases from which children suffer are occasioned by the presence of Worms in the body; and if they are neglected they produce great derangement of the system and give rise to many alarming affections.

This valuable and well known preparation is recommended with the greatest confidence; past experience and test of years having proved it to be one of the best and most reliable Vermifugers in use. It has a great advantage over most articles of the kind, as it is readily taken by children, being mild & pleasant to the taste, and safe, prompt and certain in its effects. The genuine article is prepared only by

BERRIAN & McPHAIL, Druggists,
corner Main and 7th streets, Richmond, Va.

☞ Read the following from distinguished physicians:

☞ Being familiar with 'Picot's Virginia Worm Killer," and the mode of preparing it, we can confidently recommend it as pleasant, safe and reliable Vermifuge for children troubled with Worms,

John Dove, M. D., Prof. D. H. Tucker, M D., E M Seabrook, M D, John F Jackson, M D., W F Richardson, M D., L B Waring, M D.

Slatersville, New Kent County, Oct. 5, 1867.

DEAR SIR: It gives me much pleasure to add my testimony in behalf of your most excellent Vermifuge, known as the Virginia Worm Killer, which I have extensively used in a large practice, and with the most gratifying results. Knowing its composition, I can recommend it as a safe and reliable Vermifuge, and, in my opinion, far preferable to any now extant, and less likely to be attended with unfavorable results. Administered according to directions, it may be safely given to children of all ages, and should be an indispensable medicine in every household. Yours, &c.,
L. A SLATER, M. D.

From Parents who have used it for years:

We have used Picot's Virginia Worm Killer for a long time in our families, and have never known it to fail.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long-continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.
